

Top Red Spring Varieties Grown in Manitoba - 2012

Commercial CWRS Wheat Acres - 2,201,235

Source: Manitoba Agricultural Services Corporation (MASC) 2012 Market Share Report for red spring wheat production. Does not include pedigreed or organic production.

- Please note that the MASC dataset represents acreage reported by insureds – the acreage of non-insureds is not included.

- Non-insured acreage averages 10-15% provincially but can be even more in some regions and for some crops.

- Please note that these numbers are listing seed genetic origin as reported to MASC and does not necessarily reflect certified seed sales.
