

Top 10 CWRS Varieties Grown in Manitoba - 2014

Commercial CWRS Wheat Acres – 2,173,514

Source: Manitoba Agricultural Services Corporation (MASC) 2014 Market Share Report for red spring wheat production. Does not include pedigreed or organic production.

• Please note that the MASC dataset represents acreage reported by insureds – the acreage of non-insureds is not included.

• Non-insured acreage averages 10-15% provincially but can be even more in some regions and for some crops.

• Please note that these numbers are listing seed genetic origin as reported to MASC and does not necessarily reflect certified seed sales.
